Metalubs X HT - Grease and lubricant treatment

Domain Metalubs X HT grease can be used for sliding and roller bearings under heavy loads, low to high speeds, low and high temperatures, as both universal grease for general machine lubrication in industry and crafts, as well as for demanding lubrication points.

Appearance

Physical State:	liquid
Color:	white-brownish
Odor:	characteristic

Safety-related data

Flashpoint:	260°C
Drop point:	cca. 240°C
Vapor pressure:	< 0.1 mbar at 20°C
Density:	1 g/cm ³ at 15°C
NLGI - Class:	2
Water solubility:	insoluble at 20°C
pH-value	7 to 9
Kinematic viscosity	380 mm ² /s at 40°C
Name:	KP 2 N-20
Penetration:	265-295 0.1 mm
Oxidizing properties:	Not oxidizing
Auto-ignition temperature:	Not self-igniting
Melting point/melting rage:	Not specified
Solubility in other solvents:	Well soluble in most oils

The products are made in Germany for Metalubs LTD, who is responsible and offers warranty for the distributed products.
